

E-WASTE RECYCLING

Did you know that it is illegal in Illinois to throw certain electronic devices into the trash? See the [Consumer Electronics Recycling Act](#) for details on what items need to be recycled.

We have partnered with an e-waste recycling vendor to provide disposal options for your electronic items.

- Please enter a service request to have the e-waste item removed. Pricing is shown below
 - “Type” category = “Janitorial” and then “Subtype” category = “Discard Items”
 - Include in the comments section type and quantity of items
- Toner cartridges are also required to be recycled. There is normally a return label inside the box or vendors such as Staples and Quill will take back used cartridges. If those options do not work for you please enter a service request to dispose of cartridges.
 - “Type” category = “Janitorial” and then “Subtype” category = “Toner Cartridge Disposal”
 - Include in the comments section quantity of cartridges
- Our e-waste vendor now longer offers battery disposal and the collection box in the lower level messenger center has been removed.
