

## **100 & 150 South Wacker E-Waste Recycling Program**

**Our goal is to make recycling easy for you. Here is how the program will work:**

The Illinois EPA passed a law that all electronic devices (e-waste) are banned from the landfill. Lincoln Property Company has partnered with AVA Recycling to collect and recycle e-waste. These items should not be placed in garbage cans or miscellaneous dumpsters. If you have e-waste item(s) that need to be recycled, please create a service request and mark item(s) with 'throw away' stickers. The cost for this service depends on what you are disposing.
